## CompactGTL technologies were originally developed within Accentus plc.

Until October 2005, Accentus plc was AEA Technology's intellectual property business, formerly part of the UK Atomic Energy Authority. In October 2005, Accentus plc was acquired by Collier Capital as part of a portfolio of non-core assets being sold by AEA Technology plc.

In May 2006, CompactGTL plc was established and subsequently acquired all the shares of GTL Microsystems AG (GTLM), and the Process division of Accentus plc. The Process division of Accentus had previously owned the core intellectual property and supplied technical support and development services to GTLM. All key Accentus employees were also transferred to CompactGTL. Consequently, all the assets, IP and personnel now reside within the Company.

## Management & Commercial Team

**Peter Riches**  
Chief Executive

**Nicholas Gay**  
Finance Director

**Rudie Minnie**  
Engineering Manager

**Iain Baxter**  
General Manager  
Commercial

**Dr Ross Morgan**  
General Manager  
Technology Delivery

**Phil Hawker**  
Project Manager

**Paul James**  
Financial Controller

**Nathan James**  
Operations Manager  
Wilton

## Technology Team

**Mike Bowe**  
Chief Technologist

**Dr Clive Lee-Tuffnell**  
Chief Scientist

**James West**  
Senior Process  
Engineer

**Dr Bob Peat**  
Senior Scientist

**Dr Neil Maxted**  
Scientist

**Dr Tuan Ly**  
Scientist
