> **"GTL with a difference"**  
July 2007

"If you can't flare it, reinject it or pipe it somewhere else, what do you do with associated gas? Petrobras thinks CompactGTL, a UK firm, may have a solution."  
**Tom Nicholls** writes in *The Petroleum Economist*

> **CompactGTL and PETROBRAS sign pilot plant agreement.**  
19th October 2006

CompactGTL plc and PETROBRAS announced today that they have signed an agreement for the construction and joint testing of a gas to liquids (GTL) pilot plant using proprietary, compact reactor technology developed by CompactGTL.
